QUALITIES

Strong team leader, easy to get along with.
Planning, design, and cleanliness are important to me.
I love caring for plants; I propagate mint, catnip, bamboo, and majesty palm.
I'm passionate about my projects and work.
I work hard to finish tasks quickly and avoid procrastination.

STRENGTHS

Years of experience in coding languages such as HTML, CSS, JavaScript, MySQL, Python, Java, Swift, C#, and more.
Hard-working, committed, and devoted to self-improvement.
Focused on efficiency with myself and the projects I undertake.
Fast learner who collaborates well with a team.

EDUCATION

Allen High School, Texas— *High School Diploma*

AUGUST 2020 - MAY 2024

I learned the basics of Computer Science, and took elective math and logic classes to further myself. I was also admitted to my school's Gifted and Talented program in freshman year.

PROJECTS

Allen PD Vehicle Management System — (09/23 - Present)

I'm creating a system that allows our local Police Department to manage their vehicles, maintenance, equipment, and damage in a secure and seamless manner.

Allen HS Model Scheduler — (09/22 - 04/23)

I created a system that allows Allen High School students to plan their schedules for the following school years, it alerts for possible conflicts and required prerequisites and ensures that the planned schedule is valid.

Dumpster Fire — *Discord Bot* (11/20 - 04/22)

A Discord Bot, coded in JavaScript. Grew to 74,000 users.

SKILLS

- Fast learner who picks things up quickly.
